Sir:

In further response to the Office Action mailed May 12, 1992, and further to the Amendment filed November 12, 1992, please amend the above-identified patent application as follows:

===

Please amend claims 47 and 48 as follows:

1   47. (Amended) A statistical analysis system for use

2   with a communication facility including remote terminal apparatus

3   for individual callers, wherein said remote terminal apparatus

4   may comprise a conventional telephone instrument including voice

5   communication means, and digital input means in the form of an

6   array of alphabetic numeric buttons for providing identification

7   and statistical data, said statistical analysis system

8   comprising:

9   interface means selectively coupled to said

10   communication facility to interface said terminal apparatus

11   for voice and digital communication and including means to

12   provide signals values from data developed by said terminal

13   apparatus;

14   voice generator means selectively coupled through

15   said interface means to said terminal apparatus for

16   providing vocal operating instructions to an individual

17   caller; and

18   processing means including a random number generator

19   means for providing processing data, <u>and storage means for</u>

20   <u>registered processing data,</u> said processing means for

21   isolating a subset of said individual callers based on

22   <u>repeated comparisons of</u> said <u>registered</u> processing data <u>and</u>

23   <u>processing data associated with individual callers</u>.

1   Sub G2   48.   (Amended) An analysis system according to claim

2   47 wherein said processing means includes means for adding

3   processing data to said storage means [a computer means] for

     [comparing] comparison with processing data from said random

5   number generator means [with data] associated with a caller

6   whereby to vary probability.

REMARKS

This Supplemental Amendment is further to the Amendment
filed on November 12, 1992. Allowed Claim 47 and Claim 48, which
depends therefrom, have been amended to more clearly distinguish
over U.S. Patent No. 4,996,705 to Entenmann, et al. A copy of
U.S. Patent No. 4,966,705 to Entenmann, et al., is enclosed
herewith for the Examiner's consideration. Support for the
amendments to Claims 47 and 48 can be found on page 27, lines
5-35 of the specification. Favorable consideration and allowance
of the amendments to allowed Claims 47 and 48 is earnestly
requested.

Respectfully submitted,

NILSSON, WURST & GREEN
